

We are promoting decarbonization in traditional preservation districts.

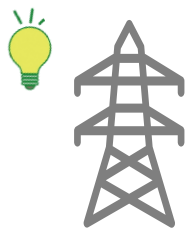

How to balance townscape preservation and decarbonization?

We provide green energy from residential solar systems in Ishikawa to Preservation Districts for Groups of Traditional Buildings, where solar panel installation is restricted to preserve historical buildings.

Residential solar systems in Ishikawa

green energy

Preservation Districts in Kanazawa

Higashiyama-higashi

Kazue-machi

Other Projects

These public facilities are powered by green energy.

Kanazawa City Hall, 21st Century Museum, Uimirai Library etc.
