Evaluation Result

()

3 Further Medical Examination

This concludes your medical examination at the public healthcare center.

Further medical examination is necessary.

(Examination(s): : (Year)(Month)(Day))

Visit a medical institution for a thorough examination.

4 Future Health Management

- If symptoms such as coughing, phlegm, chest pain, mild fever, or tiredness continue for more than two weeks, bring this notice to a medical institution, and seek medical attention as soon as possible.
- Take proper everyday health precautions to keep your immune system strong, such as maintaining a balanced diet, proper exercise habits, and adequate sleep and rest.

The results of your medical examination are as shown above.

(Year)(Month)(Day)
