

To: The guardian

## Your Medical Support Certificate is Enclosed (for Children with Disabilities)

Your application for medical support for persons with disabilities (children with disabilities) has been approved and your medical support certificate is enclosed. Please present the certificate at specified medical institutions when paying.

The reverse side of the certificate is used as a maximum payment management table for recipients (or their guardians) to keep track of their total payment. Please check the notes and instructions on how to use the table.

If you receive both medical support for children and for single-parent households, please present your certificate at medical institutions; your payment will be 500 yen per day for visits and 1,000 yen per month for hospitalizations.

### Notes

- \*1. The certificate cannot be used at unspecified medical institutions or at pharmacies.  
If you want to add pharmacies for external prescriptions, you must apply before use.  
Please take your certificate and seal to a health and welfare center to apply.
- \*2. The self-pay amount for medical support for persons with disabilities is 10% and the self-pay maximum per month is determined by your household's municipal tax (based on income). Please keep track of your payments using the maximum payment management table.
- \*3. Hospital visits for examinations prior to hospitalization or meal fees during hospitalization are not covered.
- \*4. In principle, the term of approval is three months.
- \*5. Regarding the beneficiaries of both medical support for children and for single-parent households, please visit the Kanazawa City website (Health/ Welfare/ Children→Health/ Medicine/ Hygiene→Medical support for children, etc.→Childcare medical support system).
- \*6. Specified medical institutions are also made aware of your approval for medical support.

### How to use the maximum payment management table

Medical expense amounts are to be written by guardians or medical institutions, and receipt stamps and confirmation stamps are to be stamped by medical institutions or pharmacies.

—●● (year) ● (month) maximum payment management table—

The payment has reached the monthly maximum as shown below:

	Date	Medical institution's name	Confirmation stamp
③	18 <sup>th</sup>	*** Hospital	<stamp>

	Date	Medical institution's name	Payment	Total monthly payment	Receipt stamp
①	3 <sup>rd</sup>	*** Hospital	5,800 yen	5,800 yen	<stamp>
②	18 <sup>th</sup>	*** Hospital	4,200 yen	10,000 yen	<stamp>

- Example: The monthly maximum payment amount is 10,000 yen.
- (1) Pay 5,800 yen on the 3rd and receive a receipt stamp.
  - (2) Even if the next payment is 5,800 yen, you pay only 4,200 yen because the total exceeds the maximum of 10,000 yen.
  - (3) Receive a confirmation stamp to prove that you have paid the maximum of 10,000 yen. You do not have to pay any more within that month (covered by medical support).

**Please note:** if you pay more than the maximum amount, it cannot be returned.
