

Yakushidani Area

Heavy rain that occurs once every 1000 years or more
Estimated maximum scale

Rainfall criteria prerequisite to designation of estimated flooding areas

Morimotogawa River: two day total rainfall 919mm
 Inland water: one hour rainfall 130mm
 (Heavy rain that occurs once every 1000 years or more in general)

Estimated flooding areas due to **estimated maximum scale rainfall (once every 1000 years or more)** for river overflow flooding and inland water flooding show the range and risk of flooding. In addition, areas historically flooded since 2008 or later are included.

Please note there is a potential for flooding in the areas outside the estimated areas, depending on rainfall conditions.

Legend	
Symbols for evacuation	Map symbols
Main evacuation center	Administrative boundary
Designated evacuation center (indoor)	School zone (block) boundary
Main highway	Government office
Dangerous points on the way to evacuation	Fire station, fire brigade, etc.
Underground	Police station, police box, etc.
Bridge, underpass	Hospital
	Disaster radio broadcast system
	Water level observation site

Note1: School zone (block) boundaries are approximate.
 Note2: The names of evacuation centers in school zones (blocks) are shown in thick-bordered boxes.

Estimated flooding areas and maximum water level

River overflow flooding

Inland water flooding

Historically flooded area
 * Areas where flooding occurred due to heavy rain in 2008 or later

Evacuation

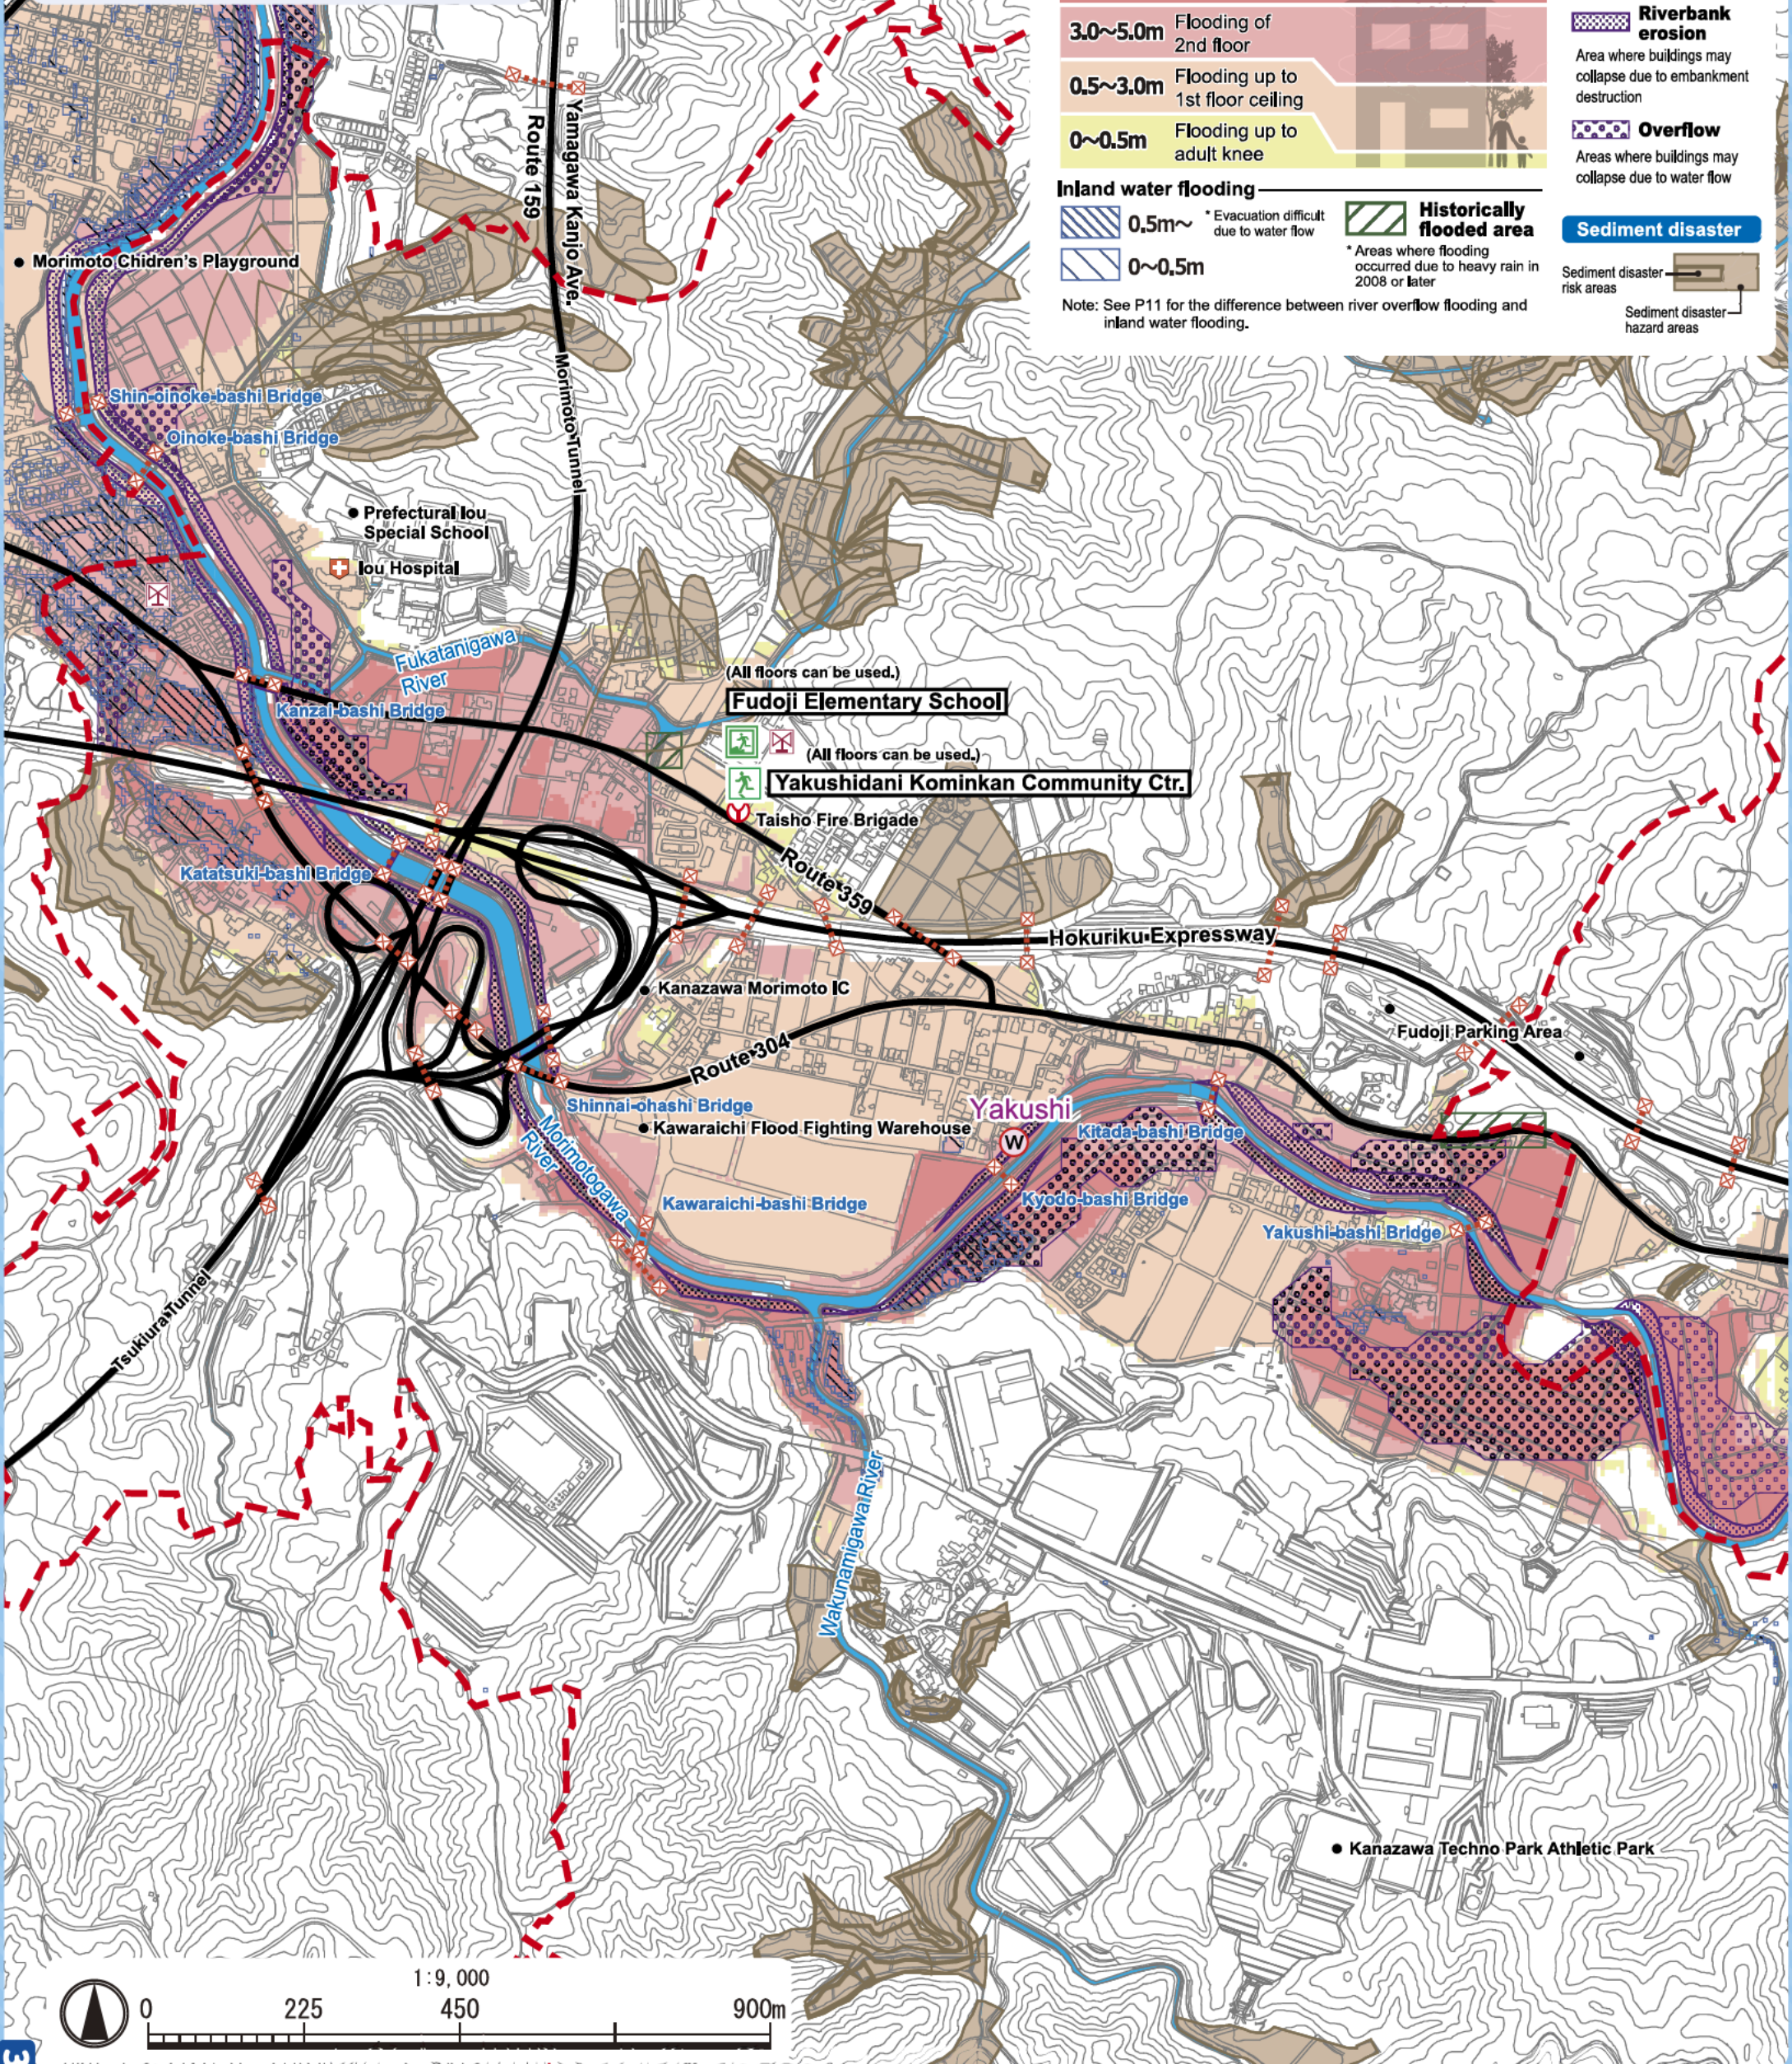

Areas where evacuation is required (due to building collapse)

Riverbank erosion
 Area where buildings may collapse due to embankment destruction

Overflow
 Areas where buildings may collapse due to water flow

Sediment disaster

Sediment disaster risk areas
 Sediment disaster hazard areas

(All floors can be used.)
Fudoji Elementary School
 (All floors can be used.)
Yakushidani Kominkan Community Ctr.

Yakushidani Area

Heavy rain that occurs once every 50 years
Estimated flood scale

Rainfall criteria prerequisite to designation of estimated flooding areas

Morimotogawa River: two day total rainfall 237mm
(Heavy rain that, in general, occurs once every 50 years)

This hazard map shows a simulation of river overflow flooding due to heavy rain that occurs once every 50 years (in general), including the range and risk of flooding. In addition, areas historically flooded due to inland water flooding since 2008 or later are included. Please note there is a potential for flooding in the areas outside the estimated areas, depending on rainfall conditions.

Legend

Symbols for evacuation

- Main evacuation center
- Designated evacuation center (indoor)
- Main highway

Dangerous points on the way to evacuation

- Underground
- Bridge, underpass

Note1: School zone (block) boundaries are approximate.
Note2: The names of evacuation centers in school zones (blocks) are shown in thick-bordered boxes.

Map symbols

- Administrative boundary
- School zone (block) boundary
- Government office
- Fire station, fire brigade, etc.
- Police station, police box, etc.
- Hospital
- Disaster radio broadcast system
- Water level observation site

Estimated flooding areas and maximum water level

River overflow flooding

- 5.0m~ Flooding above 2nd floor roof
- 3.0~5.0m Flooding of 2nd floor
- 0.5~3.0m Flooding up to 1st floor ceiling
- 0~0.5m Flooding up to adult knee

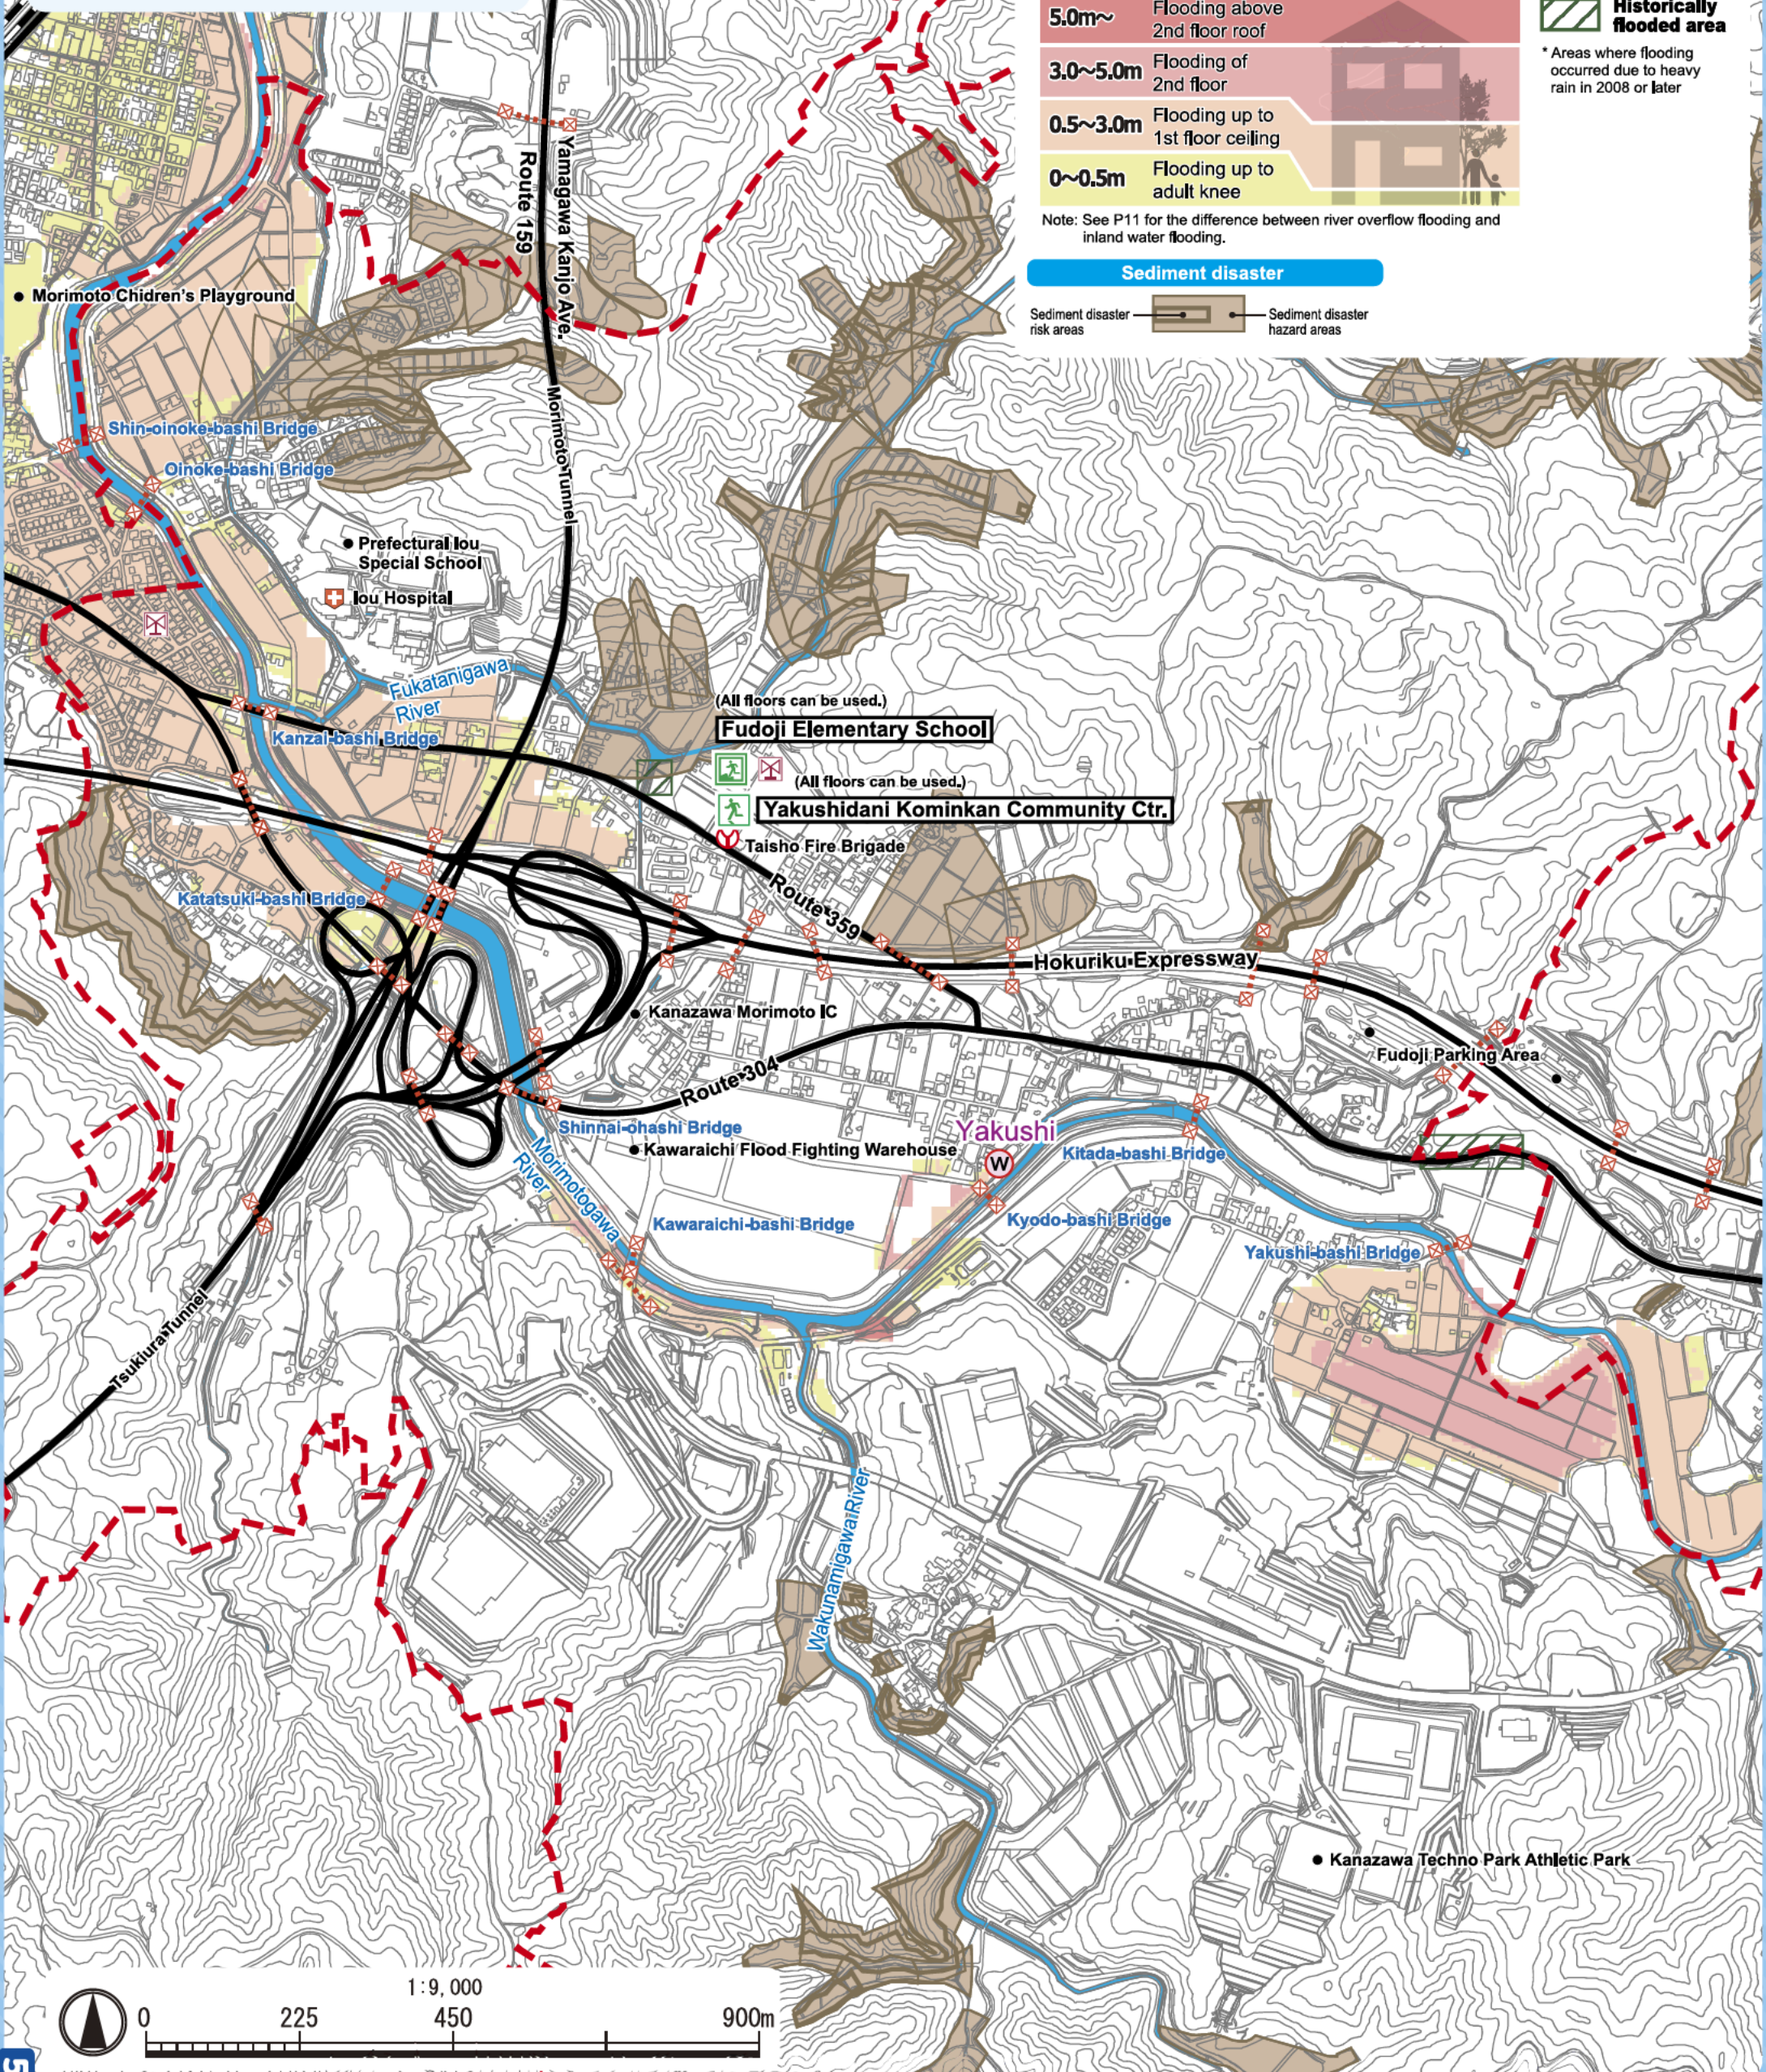

Inland water flooding

- Historically flooded area**
- * Areas where flooding occurred due to heavy rain in 2008 or later

Note: See P11 for the difference between river overflow flooding and inland water flooding.

Sediment disaster

- Sediment disaster risk areas
- Sediment disaster hazard areas

(All floors can be used.)
Fudoji Elementary School

(All floors can be used.)
Yakushidani Kominkan Community Ctr.

My Family's Disaster Notebook

● Fill in the blanks to complete your disaster notebook.

Evacuation centers/ Evacuation routes

* Determine multiple evacuation centers and multiple routes there, and mark them on the map.

Evacuation centers

Items to carry

* Share information of the storage places among family members.

Storage places

Shared commitment

* Please cooperate in your community to help people who need evacuation support.

Commitment

(For reference) Evacuation centers in your area and nearby areas (The available floors are for estimated maximum scale rainfall)

Name	Address	Tel	Available floors
Fudoji Elementary School	I-33 Fudoji-machi	258-0221	All floors
Yakushidani Kominkan Community Ctr.	I-34-1 Fudoji-machi	257-2488	All floors
